EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jerald Meyer (Reg. No. 41,194) on November 23, 2004.

The application has been amended as follows:

IN THE SPECIFICATION:

In the amendment to page 1 of the specification submitted in the supplemental preliminary amendment dated November 1, 2004 as shown in attachment B, the phrase --, now U.S. Patent No. 6,711,998, issued March 30, 2004-- was inserted after "2001" in line 2 of the text to provide updated information regarding the parent application.

On page 34, line 8 of the specification, the term "wind" was deleted and replaced with --wound-- to correct an obvious grammatical error.

IN THE DRAWINGS:

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: In Figure 6, reference numeral 34 will be deleted and replaced with --34b-- to be consistent with the description in

the specification on page 22, lines 11-12 and what is shown in Figure 5. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest a hybrid stencil printing apparatus, method, or computer readable program have all of the structure or method steps as recited, in combination with and particularly including, the image formation unit selection-unit determining whether each image portion of the original data image is a vector or bit-map image and allocating the different image portions to the different printing units as specifically recited.

Additionally, it is noted that applicant specifically defines what is meant by "bit map image" and "vector image" on pages 9-10 of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone

number is **(571) 272-2161**. The examiner can normally be reached on M-Th
7:30 am-6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the
examiner's supervisor, Andrew H. Hirshfeld can be reached on (571) 272-2168.
The fax phone number for the organization where this application or
proceeding is assigned is 703-872-9306.
